SWIPE

--→ **NEW FUNCTIONALITIES FOR CMHIS (GOVERNMENT EMPLOYEES) ON THE CMHIS LOGIN DASHBOARD**

New features are now available for government employees in the CMHIS portal. When an employee updates their name, gender, etc. in the PIMS portal, those changes will be automatically reflected in both the CMHIS and BIS portals by using these two features:

1. Sync Data with PIMS for GE
2. Sync Data with BIS for GE

To update your information from the PIMS data to the CMHIS portal, please follow these steps:
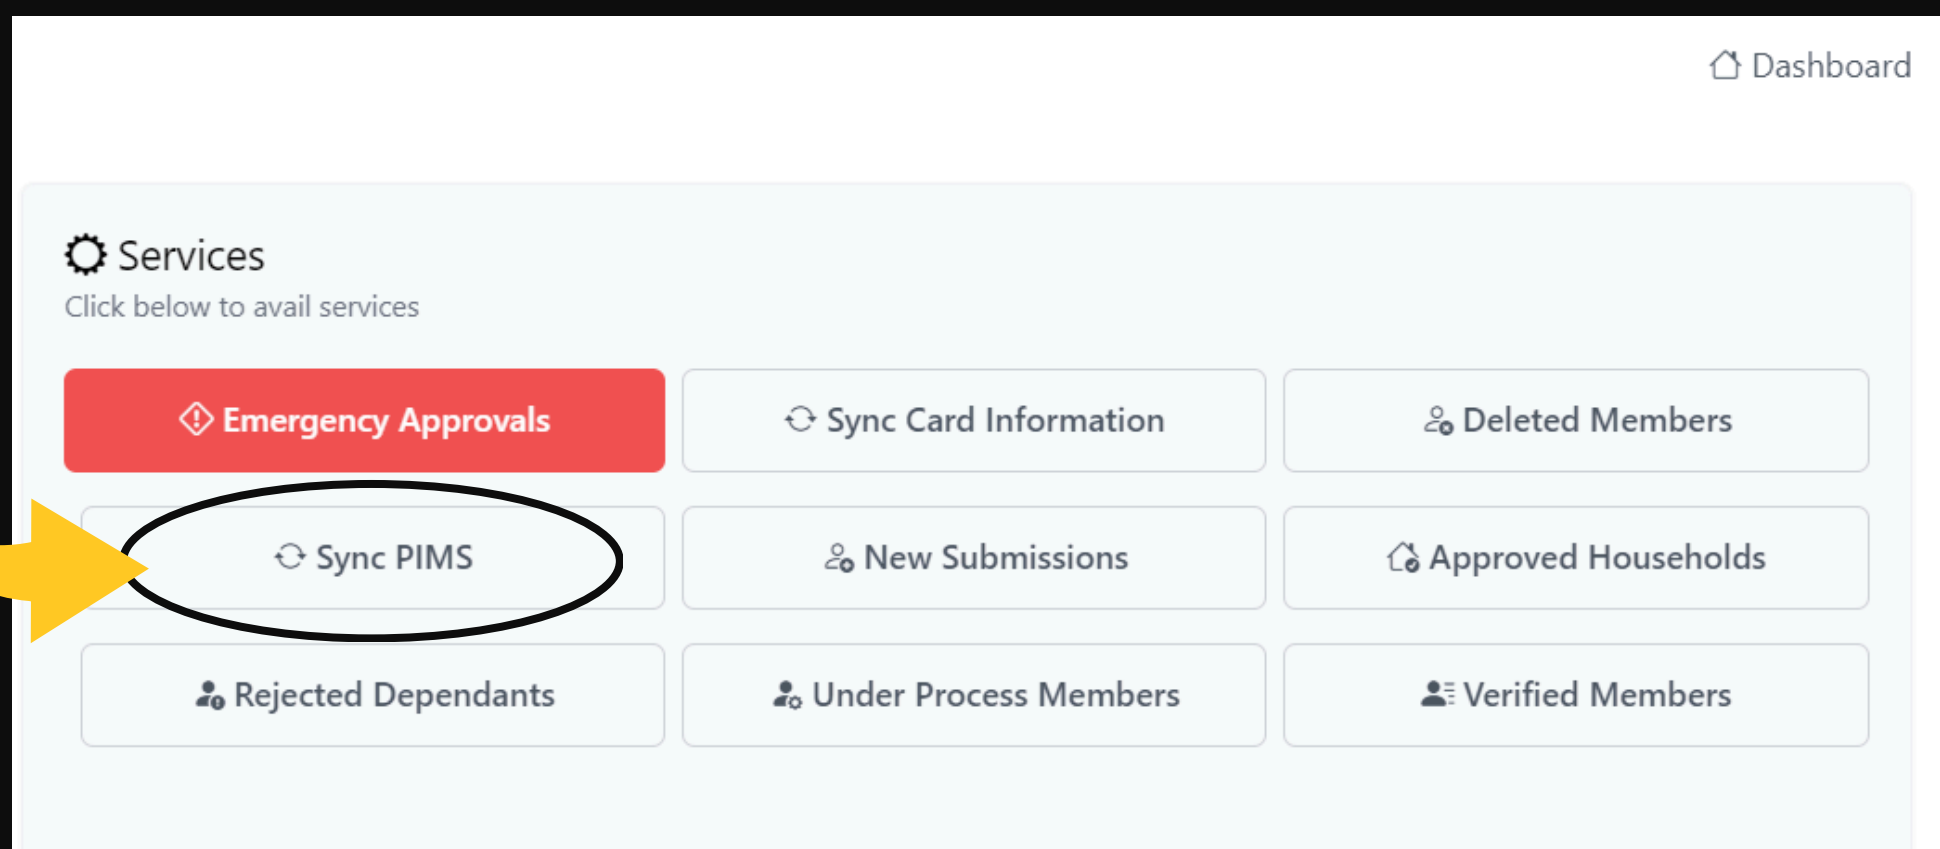

i.Visit **https://cmhis.nagaland.gov.in/** and log in using your registered email/mobile number and OTP or password.
ii.Once logged in, your dashboard will appear. Click on the "Sync PIMS" option. On clicking this option, eligible members with their PIMS Code will be listed.
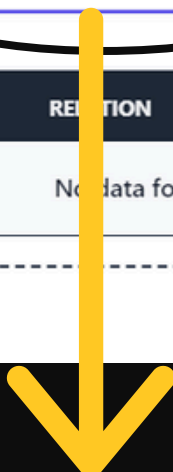

1. SYNC DATA WITH PIMS FOR GE

iii. Enter your PIMS number and click "Load Family Members."

⌂ Dashboard

Load Family Members

RELATION	DEPARTMENT	PIMS CODE	ACTION
			sync

iv. On the right side of the updated member's details, click "Sync" under Action column. Your updated details will then be reflected in the CMHIS login dashboard.

[Update Information in CMHIS]

v. A Pop Up Window will show details available in PIMS Portal. Click "Update information in CMHIS" button to sync data with CMHIS Portal

Note: To complete the data syncing from PIMS to CMHIS and from CMHIS to the BIS portal, proceed to Step 2.

To update information from the CMHIS portal to the BIS card generation portal, please follow these steps:
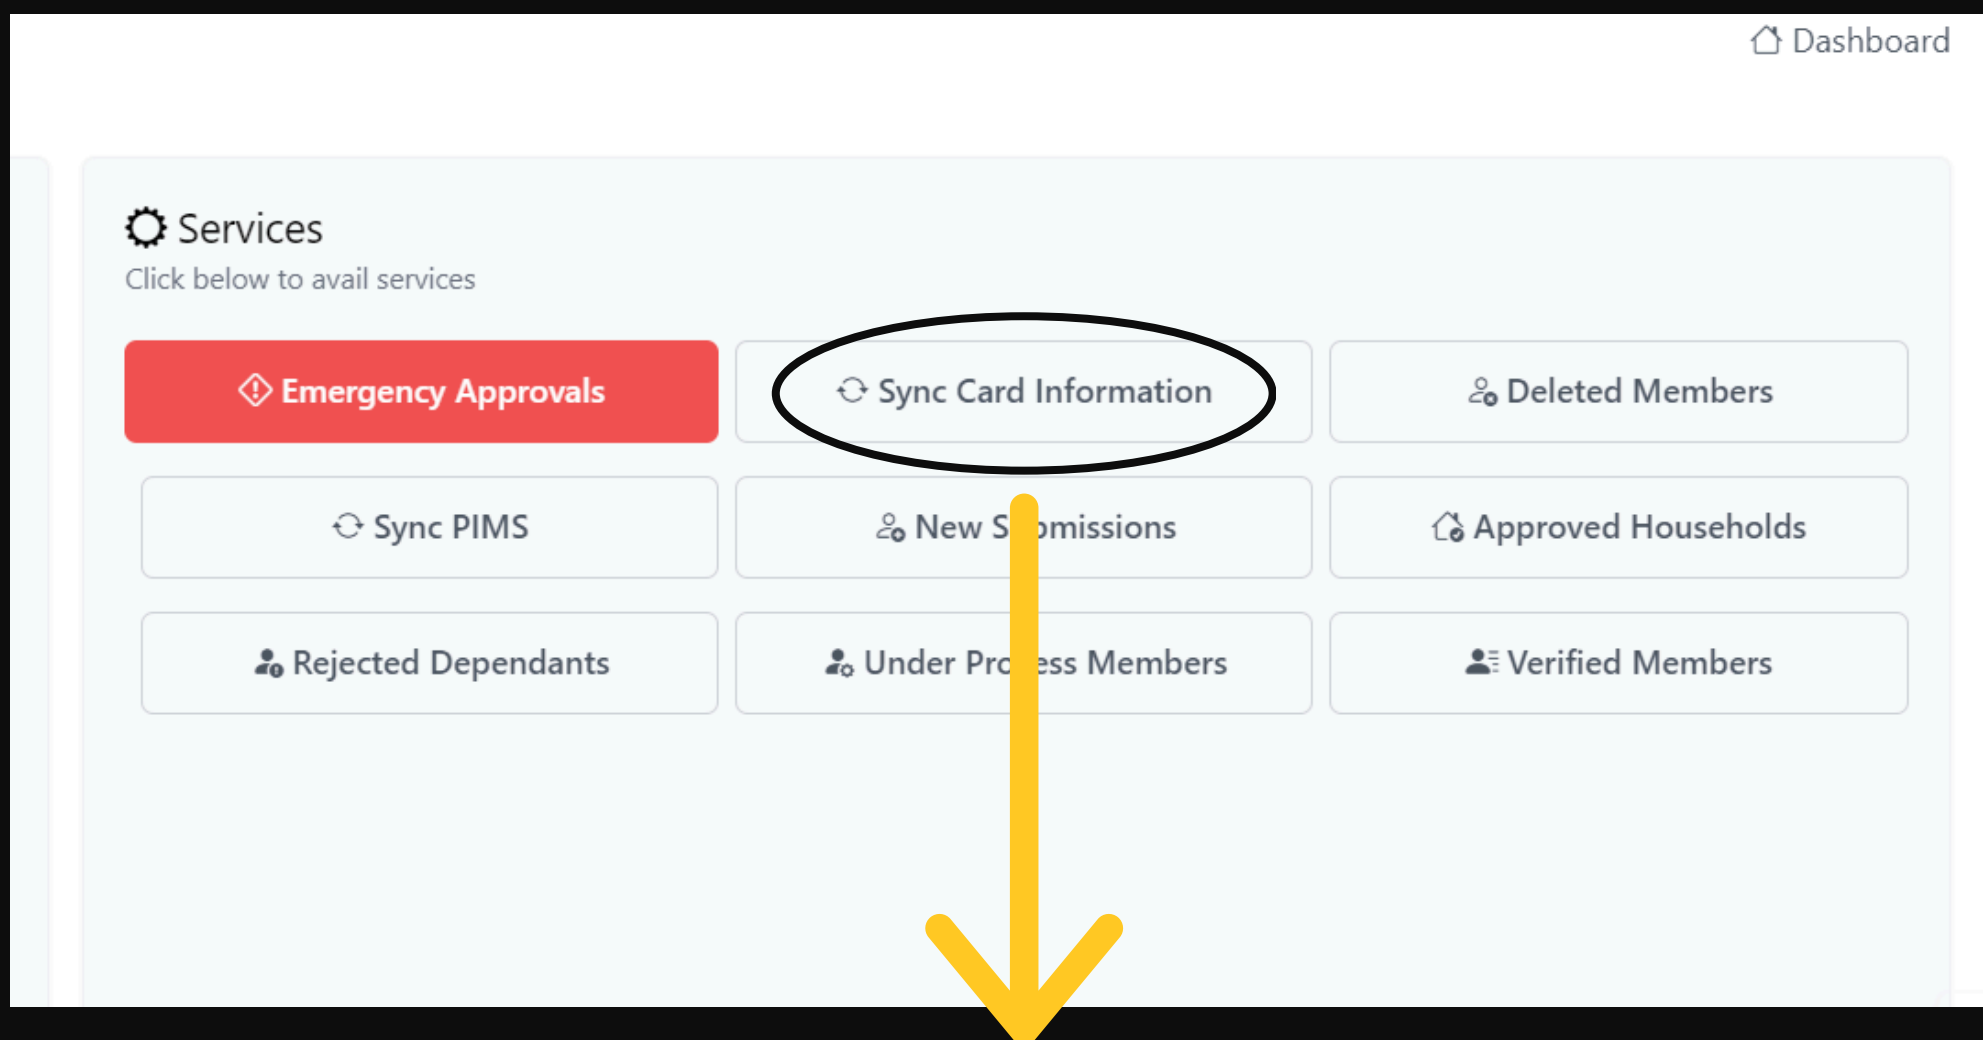

i. Click on "Sync Card Information". A list of only the APPROVED family members will be displayed.

Dashboard

Family ID *

ENTER FAMILY ID

Sync Data of Approved Dependants of the Household for Card Generation

&₀ Approved Dependants of the Household

#	FULL NAME	GENDER	RELATIONSHIP	⚙
1		M	HEAD	Check Policy
2		F	SPOUSE	Check Policy

ii.Enter "Family ID" and click on "Load Family Details" on the top right.

2. SYNC DATA WITH BIS FOR GE

Sync Data with BIS

⚙ API Response

```
            {
  "header": {
      "state_code"
      "ID_Number":
      "ID_Type": "        ,
      "error_code": "200",
      "error_msg": "SUCCESS"
},
  "details": {
      "family_guid":
      "family_id": ":
      "state_lgd_code :   13 ,
      "district_lgd_code": "248",
      "subdistrict_lgd_code": "",
```

iii.Click on "Sync Data with BIS" button, which will sync the information with BIS Card Generation Portal.

Check the API response. If it shows "SUCCESS" your updated information will be reflected in the BIS portal for card generation.
